DRUNK BUSTERS GOGGLES

These Goggles Don't Help You See... They Make You Think!

As soon as you slip on a pair of our Drunk Busters Goggles, you'll begin to experience the simulated effects that alcohol consumption has on your body. These unique goggles simulate effects of impairment, including reduced alertness, slowed reaction time, confusion, visual distortion, alteration of depth and distance perception, reduction of peripheral vision, poor judgment and decision making, double vision, and lack of muscular coordination. Curt Kindschuh, Founder and Owner of Drunk Busters of America, is the designer and patent holder for Drunk Busters Impairment Goggles, which are being used worldwide in 92 different countries. These goggles are being used in drunk driving prevention and awareness programs, driver education classrooms, boating/snowmobile/ATV/hunter safety classes, underage drinking and drug awareness programs, alcohol and drug treatment programs, and by safety management and occupational health personnel. Available in ten different versions, they are the most affordable and the finest impairment goggles on the market! All goggles include a cloth carrying bag and an Instructor's Guide, available in Spanish on request. **Each and every goggle is backed by a five-year warranty...**if the frame, lens, or elastic strap breaks, we will replace the goggle or strap at no charge to you!

For some people, impairment might result from as little as one alcoholic drink. Impairment can also result from combining alcohol with prescription medication, yet with a very low Blood Alcohol Concentration (BAC). Using illegal drugs can also be impairing, with no BAC level even present. Our goggles represent the following approximate range of BAC levels for the 'average' person consuming alcohol under 'average' circumstances:

*I wanted to let you know that the students enjoy and get a lot of value out of your products!
We utilize them almost daily, they are a great teaching tool for the kids.*

DRUG IMPAIRMENT GOGGLE

Simulates many of the effects of using illegal drugs or overdosing on prescription medication, including disorientation, altered space perception, vertigo, lack of concentration, image distortion, memory problems, and feelings of euphoria.

(camo strap)

SNOOZE GOGGLE® **

Simulates fatigue in the early morning after working all night long and also extreme fatigue.

CANNABIS GOGGLE™

According to recent U.S. Government studies, 30% of today's teenagers are smoking marijuana. About 4% of adults smoke pot at least once a year, with roughly 1% abusing it. Smoking marijuana can affect your ability to perform simple tasks, it impairs concentration and coordination, it can cause slowed reaction time, and can result in short-term memory loss. Smoking marijuana can also result in a feeling of nausea, which these goggles simulate. With several states recently legalizing marijuana, the Cannabis Goggle is a training tool which can be used with young people and with adults.

(olive strap)

RED-EYE GOGGLE™ **

Simulates fatigue late in the day when the sun is about to go down and fatigue under low light conditions.

(rose strap)

BAC of .08 to .15
Drunk Busters
Impairment Goggle*
(black strap)

ECSTASY/MOLLY/LSD GOGGLE™

The fastest emerging drug problem in the USA is the use of Ecstasy, also known as Molly. Effects of using it include impaired judgment, blurred vision, confusion, a distorted perception of color, and an increase in blood pressure and heart rate. LSD stands for Lysergic Acid Diethylamide, which is a hallucinogen. Popular in the 60's and 70's, it has slowly been making a worldwide comeback. Combined with impaired depth perception, this goggle simulates effects of using Ecstasy/Molly or a bad LSD trip.

Drunk Busters Challenge Activity Mat

Simulating a country road in a rural setting, the 6' x 12' mat is a great interactive activity to demonstrate the dangers of impaired driving and also distracted driving, specifically texting while driving. The width of the road is 16 inches, thus the participant actually walks on the road, while steering a real steering wheel, and has to stay between the lines of the outer edge of the road, avoiding a deer, mail delivery vehicle, pedestrians, bicyclists, and even a family of skunks. It also features two intersections complete with stop signs. The first time the student drives the course, they are completely sober. The second time, they text a friend while driving. The third time, they wear a Drunk Busters Impairment Goggle to get a feel for the dangers of impaired driving. Each time, count the number of mistakes they make, and use a stop watch to time them and then use that opportunity to teach the students about delayed reaction times when they are distracted and/or impaired. Made of 14.9 ounce vinyl, it is backed with a one year warranty against rips or tears. \$349.00

Includes: 6' x 12' Drunk Busters Challenge Activity Mat

- Four goggles of your choice
- *Unfinished Miles* on DVD
- Drunk Busters Stickers— 500 3-inch stickers
- Drunk Busters carrying bag

Drunk Buster Pedal Karts are used along with Drunk Busters Goggles to demonstrate the dangers of impaired driving in a safe way. Using traffic safety cones, you design your own driving course in a way that works for you and the parking area or gym floor that you have available. Participants first drive the course “sober” and then attempt to perform several hands on tasks, including field sobriety testing. Then, have the participant drive the course again and perform the same testing while wearing a Drunk Busters Goggle. As with real life, the participant is in complete control while “sober” but once alcohol use, drug use, or sleep deprivation is simulated, they are no longer 100% in control. In real life, that is when crashes happen, and people get injured and killed. This is a **SAFE** and **EFFECTIVE** and **EASY** way to teach young people and adults about the dangers of not being in control of themselves. There is **NO HIGH PRICED TRAINING** required. Designed with a heavy duty frame, adjustable seat, pedal brakes, all-terrain tires, and an articulating front end to keep all of the wheels on the ground, each unit is backed with a full one year warranty (abuse or misuse is not covered). Some assembly required, it should take about 10 minutes and requires a few basic tools. Ages 10–adult. The Drunk Busters Pedal Kart has a 350 pound weight limit. (Shipping and Handling rates are for the contiguous 48 states. Shipping to Hawaii and Alaska and other countries will require a shipping quote). Quantity discounts are available; email curt@drunkbusters.com for a quote. Shipped via freight truck.

Drunk Driving DVDs

ANOTHER SMASH HIT

The National Safety Council estimates that at least one million crashes---33% of the total---are caused each year by using cellphones and texting while driving. If you text and drive, a serious accident is inevitable. Another Smash Hit is the best DVD available to teach all drivers about the consequences of texting and driving.

(\$89, DVD, 12 minutes, grades 5-adult, 2011)

BROTHERLY LOVE

is the story of two brothers who worked together, played together, and died together at the hands of a drunk driver. Twenty-three year old George and twenty-one year old Tom Palmer were driving home one night after helping their grandparents move when the driver of another car crossed the centerline and hit them head-on. This story is about the pain of losing not one but two loved ones, the effect on an entire small community, and the journey of a family struggling to deal with their deaths over two decades after the tragedy occurred.

The pain of losing a loved one never goes away.

(\$89, DVD, 15 minutes, grades 5-adult, 2012)

THINK ABOUT IT

is a groundbreaking program that features a powerful short film, a compelling documentary, and an interview with a well respected and published Psychiatrist who deals with teens and teen development. This two disc DVD set, with television quality and contemporary story telling, will capture the viewer and make them Think About It.

(\$89, DVD, 38 minutes, grades 5-adult, 2011)

UNFINISHED MILES: ONE MAN'S UNTHINKABLE JOURNEY

Mark Manion and his cousin Mike were involved in a horrible crash while cycling across the United States. Mike was killed and Mark was left paralyzed from the neck down. Sixteen years later, the real truth of the crash was revealed – the driver of the car was drunk. Mark's story gets a person to think about choices, and the consequences of those choices.

(\$89, DVD, 20 minutes, grades 5-adult, 2003)

STUDENT DRIVER MAGNETS Professional driving instructors use Student Driver magnets because they work. Made with a heavy duty magnet, this sign will stay on in all conditions. 4 x 12 inches, these are the most affordable student driver magnets available at only \$5 per magnet.

A BRIEF HISTORY

With a college degree in social work, with minors in business administration and human relations, Curt Kindschuh worked as a deputy sheriff and police officer for 18 years, and was recognized in the Wisconsin Law Enforcement Officer of the Year Awards in 1993 for his creative approaches to crime prevention. He was one of the first Drug Abuse Resistance Education (D.A.R.E.) Officers in Wisconsin, and worked for 4 years in 23 schools as a D.A.R.E. Officer. He started the "Shop With a Cop" program, which has since been duplicated in other areas of the United States, and he was also a bicycle safety officer. Curt was a member of WI Governor Tommy Thompson's DUI Task Force, he worked with convicted DUI offenders for 4 years as a traffic safety school instructor, and he was a volunteer with Mothers Against Drunk Driving (MADD) for 14 years. From 1994-1997, he worked as the Wisconsin State Executive Director of MADD. He also worked part-time for a number of years as a college instructor in the criminal justice program at Moraine Park Technical College.

Curt was certified in DWI Detection and Standardized Field Sobriety Testing, and as an Intoxilyzer operator. As an advanced victim advocate with MADD, he received training in death notification. Curt knows and understands drunk driving. He has arrested drunk drivers, investigated fatal crashes, counseled convicted DUI offenders, and worked as an advocate for innocent victims of impaired driving crashes. In 1995, Curt Kindschuh started Drunk Busters of America. He is the designer and patent holder for Drunk Busters Impairment Goggles, used worldwide in 92 countries in the fight to stop impaired driving.
